Your role at the placement (position): Full stack Intern Developer

Brief description of your work at the placement: As a Full Stack Developer, I create and maintain complete web applications. I build both the website's front-end that users see and interact with, as well as the back-end systems and databases that power everything behind the scenes. I write code that connects these parts together, test to make sure everything works properly, and work with my team to add new features and fix any issues. My role focuses on making sure our applications run smoothly and reliably for all users.
